

COVID-19 SAFETY PROTOCOL POLICY

Davis New Homes & Developments and its Subcontractors (Service Providers) will adhere to the following safety protocols when providing service work within the homes of our clients:

1. Service Providers who will be attending the site will complete the pre-screening questionnaire and provide it to the homeowner prior to the repairs occurring upon request.
2. Service Providers are committed to following hand washing and proper hygiene guidelines as recommended by public health organizations while on site.
3. Service Providers will wear Personal Protective Equipment (PPE) including non-medical grade masks, hand sanitizer, gloves and disinfectant wipes while working within the home.
4. Service Providers will follow a repair protocol that:
 - a. Minimizes the number of repair staff attending the site.
 - b. Requires disinfecting the areas touched during the repair.
 - c. Requires the builder to maintain a record of repair staff who enter the home.

The Homeowner (Owner) agrees to the following protocols for service work to be carried out inside their homes:

1. Complete and submit a COVID-19 Self-Assessment for all occupants of the home.
 - a. The preferred COVID-19 Self-Assessment is found here: <https://covid-19.ontario.ca/self-assessment/> or <https://davisnewhomes.ca/contact/> under COVID-19 Resources.
 - b. The results of each named COVID-19 Self-Assessment shall be emailed to service@davisnewhomes.ca.
 - c. The results of the COVID-19 Self-Assessment for all occupants shall be completed and submitted via email before a service appointment will be scheduled.
2. All occupants including pets will practice physical distancing at the time of the service appointment by either remaining outside of the home or staying in a separate level of the home for the duration of the service appointment.
3. Owners will acknowledge their having read and will agree to abide by the safety protocols in writing by sending an email to service@davisnewhomes.ca.
